

The X40 formal Firmware release note (R0008)

- ① Release date : February 4th, 2015
- ② The version of updated firmware : R0008
- ③ Refer to the below for the contents updated

A. New Functions

Using 'Network Attached Storage(NAS)' as MusicDB storage

You can use 'a network attached storage(NAS)' as X40 MusicDB storage. For example, you can create MusicDB onto your PC or NAS which is connected to X40 via same network. So, you can rip CDs into the NAS also.

<NOTE> The NAS must support 'Samba server protocol'.

※ How to start

STEP 1. Make a 'shared folder' firstly on the NAS(PC hard disk). The folder should be allowed for read/write.

STEP 2. Add the 'shared folder' into X40 NET of Browser via 'Network Sharing(Samba Client)' function. ※ Please refer to 'Network Sharing (Samba Client)' on the X40 user manual if you don't how to add add 'shared folder'.

STEP 3. Go to SETUP > MusicDB > Storage : Place the cursor on the NET like left screen. Press MENU key to open POPUP window like below screen.

STEP 4. Select the shared folder and confirm it with OK key.

B. Bug clear and improvement

- 1 [Simfy Authentication issue is cleared](#)
