# The X30 Official Firmware Release Note (R0122)

① **Release date : November 3rd, 2016**
② **The version of updated firmware : R0122**
③ **Refer to the below for the contents updated from R0118 to R0122**

A. New Functions

App Server is integrated for customized app, NOVATRON MusicX

Customized App, named as 'NOVATRON MuiscX' will be released soon via Google Play Store and Apple App Store. As App Server is integrated into R0122 version and higher, you may use MusicX App with your X30 if you update it with R0122 version or higher

※ NOTICE
As it may take more time to get approval from Google and Apple, there is quite a possibility that date of release to Play Store and App Store may be delayed more accordingly.

B. Improvement

1 **Clear the bug that biz size photo file changed to 'Question Mark' when importing cover art from storage or when calling a photo file from storage for Slide Show**

2 **Make Google work again for retrieving Album Cover Art**

3 **Clear the bug that only JPEG file can be changed properly when trying changing album cover art via WebInterface**

4 **Clear the bug that the latest backup date is not updated properly after 'Background Backup'**

5 **Clear the bug that INFO key doesn't work properly when playing a file stored in remote storage connected by UPnP protocol**

6 **Clear the bug that UPnP Media Renderer function doesn't work properly over the Windows Media Player**

7 **Clear the bug that AIFF file tag information is not supported correctly**

8 **Clear the bug that sometimes device doesn't boot up properly in case that unformatted HDD is installed**

9 **Clear the bug that it takes long time to load iRadio station if the station doesn't have station logo**

10 **Clear the bug that MUTE comes to be enable automatically if you connect a source device to Analog IN.**

11 **Clear the bug that device doesn't recognize CD during booting and CD Eject key on the device doesn't work properly if you power off and on the device with CD inserted inside of the device.**

Thank you very much
