# The X40 Official Firmware Release Note (R0053)

① **Release date : November 1st, 2016**
② **The version of updated firmware : R0053**
③ **Refer to the below for the contents updated from R0048 to R0053**

A. New Functions

App Server is integrated for customized app, NOVATRON MusicX

Customized App, named as 'NOVATRON MuiscX' will be released soon via Google Play Store and Apple App Store. As App Server is integrated into R0053 version and higher, you may use MusicX app with your X40 if you update it with R0053 version

B. Improvement

1 **Clear the bug that big size photo file changed to 'Question Mark' when importing cover art from storage or when calling a photo file from storage for Slide Show**

2 **Make Google work again for retrieving Album Cover Art**

3 **Clear the bug that only JPEG file can be changed properly when trying changing album cover art via WebInterface**

4 **Clear the bug that the latest backup date is not updated properly after 'Background Backup'**

5 **Clear the bug that device doesn't recognize CD during booting and CD Eject key on the device doesn't work properly if you power off and on the device with CD inserted inside of the device.**

6 **Clear the bug that INFO key doesn't work properly when playing a file stored in remote storage connected by UPnP protocol**

7 **Clear the bug that UPnP Media Renderer function doesn't work properly over the Windows Media Player**

8 **Clear the bug that AIFF file tag information is not supported correctly**

9 **Clear the bug that sometimes device doesn't boot up properly in case that unformatted HDD is installed**

10 **Clear the bug that it takes long time to load iRadio station if the station doesn't have station logo**

Thank you very much
